

## CoderDojo Zen Projects Showcase

### Create Project Page - used to create a new project

1. Is the page easy to understand as a whole and do you understand each input field?

Yes

2. Do you find the design visually appealing (colours, layout, images)?

Yes

3. Are there any other programming languages you would use and like to see supported?

Scratch ?

4. Any other comments or additional feedback (any positive or negative feedback is welcome, the more the better!)

Idea was great!

## Project Information Page - displays information about the created project

1. Is the page easy to understand as a whole?

Yes

2. Do you find the design visually appealing (colours, layout, images)?

The <sup>colours</sup> ~~colours~~ are a  
bit dark

3. Do you think there's any additional information that should be added to this page?

4. Any other comments or additional feedback (any positive or negative feedback is welcome, the more the better!)

Maybe add a bit more  
colour so that ~~peo~~ you  
can draw people in

**Running Project Page - displays the running project and allows interaction**

1. Do you find the design visually appealing (colours, layout)?

Great!

2. Do you think there's any additional information that should be added to this page?

3. Any other comments or additional feedback (any positive or negative feedback is welcome, the more the better!)

### **Project List - displays grouped links to uploaded projects**

1. Are there any other project categories you would like to see listed here, if so which ones?

2. Do you find the design visually appealing (colours, layout, images)?

3. Do you think the search box should be included on this page, given that there is a search bar already at the top of the site for general searching? To clarify, the search box on the page is just for projects.

Yes

4. Any other comments or additional feedback (any positive or negative feedback is welcome, the more the better!)

Love the project!

Good luck!
